

**Claim Amendment under 37 CFR §1.121**

Claim 1. (currently amended) A system having beauty, medical and bath functions for pets, comprising:

    a bathtub stand for fixing a pet's head and body;  
    a bathtub stand ~~height~~ adjusting ~~unit~~ member for supporting the bathtub ~~and~~ adjusting the height of the bathtub stand; and  
    a bathtub for storing water therein,

    wherein said bathtub stand ~~height~~ adjusting ~~unit~~ member is installed at a bottom of the bathtub ~~and~~ said bathtub stand includes a head rest for fixing a pet's head; a neck fixing member for adjusting the length and angle based on a pet's neck size; and a body supporting member for supporting the body of the pet.

Claim 2. (currently amended) The system of claim 1, wherein said bathtub stand further includes:

    a ~~head rest and~~ fixing band for fixing a pet's head;  
    a ~~neck fixing member for adjusting the length and angle based on a pet's neck size;~~ and  
    a ~~body length adjusting member for adjusting the length based on the size of the pet.~~

Claim 3. (canceled).

Claim 4. (currently amended) The system of claim 2 1, wherein said body ~~length~~ adjusting supporting member is designed to adjust the ~~distance between the front legs and the rear legs with respect to an abdomen of the pet's body~~ length based on the size of the pet.

Claim 5. (currently amended) The system of claim 2 1, wherein said bathtub stand further includes a body side safety support fixing member for stably supporting the left and right sides of the pet's body during beauty, medical and bath operations wherein the angle ~~and width~~ of the same are adjustable based on the size of the pet's body.

Claim 6. (original) The system of claim 2, wherein said bathtub stand further includes a protection cap hinged at the head fixing band wherein said protection cap is movable upwardly and downwardly.

Claim 7. (original) The system of claim 1, further comprising a bathtub stand rotation member for rotating the bathtub at 360° with a four-step rotation adjusting level.

Claims 8-17. (canceled)

Claim 18. (currently amended) The system of claim 1, wherein a drier arm is free-rotatably hinged at one side surface of an inner upper end of the bathtub and a shower unit arm is free-rotatably hinged at the other side surface of an inner upper end of the bathtub.

Claim 19. (canceled)

Claim 20. (currently amended) The system of claim 18 ~~or claim 19~~, wherein said drier arm and said shower unit arm are combined.

Claim 21. (currently amended) The system of claim 18 ~~or claim 19~~, wherein said drier arm and said shower unit arm are stored at one side surface of an inner upper end of the bathtub.

Claims 22-26. (canceled)

Claim 27. (currently amended) A system having beauty, medical and bath functions for pets, comprising:

    a bathtub stand for fixing a pet's head and body;  
    a bathtub stand ~~height~~ adjusting unit member for supporting the bathtub ~~and adjusting the height of the bathtub stand~~; and  
    a stand leg unit that operates as a support for supporting the bathtub stand ~~height~~ adjusting unit member ~~and includes a suspension bar connected between the both ends of the legs, wherein said stand leg unit is foldable legs in which the joints of the legs and the connection points of the joints are foldable in a joint type and is freely folded or unfolded.~~

Claim 28. (currently amended) The system of claim 27, wherein said bathtub stand includes:

a head rest ~~and fixing band~~ for fixing a pet's head;

a neck fixing member for adjusting the length and angle based on a pet's neck size; and

a body ~~length adjusting~~ supporting member for supporting the body of the pet.

Claim 29. (canceled)

Claim 30. (currently amended) The system of claim 28, wherein said body ~~length adjusting~~ supporting member is designed to adjust the ~~distance between the front legs and the rear legs with respect to an abdomen of the pet's body~~ length based on the size of the pet.

Claim 31. (currently amended) The system of claim 28 27, wherein said bathtub stand further includes a body side safety support fixing member for stably supporting the left and right sides of the pet's body during beauty, medical and bath operations wherein the angle ~~and width~~ of the same are adjustable based on the size of the pet's body.

Claim 32. (canceled)

Claim 33. (original) The system of claim 27, further comprising a bathtub stand rotation member for rotating the bathtub at 360° with a four-step rotation adjusting level.

Claims 34-36. (canceled)

Claim 37. (new) The system of claim 1, wherein said bathtub stand adjusting member adjusts the height of the bathtub stand.

**Remarks**

In this amendment, applicant has decreased the number of total claims to *fifteen*. The applicant has canceled without traverse claims 3, 8-17, 19, 22-26, 29, 32 and 34-36. Claims 20 and 21 are amended from multiple dependent claims to single dependent claims, respectively. Claim 37 (the 15th claim after this amendment) is newly added.

Two of the elements are renamed for claiming and amendment purposes, where *bathtub stand height adjusting unit* is renamed to *bathtub stand adjusting member* and *body length adjusting member* is renamed to *body supporting member*. Subsequently, the adjustable height is newly claimed as claim 37.

Claim 2 is partially incorporated to independent claim 1. The canceled claim 19 is totally incorporated to claim 18. The canceled claim 36 is incorporated to the second independent claim 27.

Specification, drawing and abstract remain unchanged.

No new matters are included in this amendment.

Applicant now respectively requests a timely examination of the PCT national stage application in consideration of this preliminary amendment.

Respectively submitted,

IPLA P.A.
